

Portable machine designed for general purpose usage.

Suitable for Engineering Shops, Contractors, Plumbers, Farmers, Schools etc.

Electric-Hydraulic Pipe Bender

Model: PB2-E

- Supplied standard with 1/2" to 2" pipe formers. Lightweight aluminium alloy formers with large angle of arc to support pipe during bending. This results in a bend of superior quality
- Cross section of formers is of "elliptical" form to minimise flattening of bend
- Solid frame fabrication eliminates flexing during bending operation
- Comes with BRAMLEY Electric/Hydraulic Ram fitted for ease of use & speed of operation.
- 15 ton capacity hydraulic cylinder
- Shipping Weight 65kg

Spring return ram, retracts ram when bend is complete.

Gravity Diecast aluminium alloy formers. Same specifications with higher quality finish.

Replacement Pipe Bender Formers

- Lightweight, aluminium alloy formers of "elliptical" design and large angle of arc to achieve superior quality bends
- To replace lost or damaged formers for BRAMLEY and other brands of Pipe Bender
- When using BRAMLEY formers on another brand of pipe bender, ensure distance between rollers is not too close which can cause former damage
- The ram spigot hole on BRAMLEY formers is 38mm. This can be pushed to suit smaller ram diameters

Bending angle measuring stop, allows repeat bending with ease.

Flip top frame for easy pipe placement & removal and changing of former size.
