

Hydraulic Pipe Bender

Model: PB2

Supplied with six formers, two bobbins (support rollers) and pins. 1/2" - 2" N.B. Pipe capacity.

- Lightweight aluminium alloy formers with large angle of arc to support pipe during bending. This results in a bend of superior quality.
- Cross section of formers is of "elliptical" form to minimise flattening of bend
- Solid frame fabrication eliminates flexing during bending operation
- Shipping Weight: 64kg
- 16 ton capacity hydraulic cylinder
- Shipping Dimensions 74 x 69 x 27cm

1. Two-stage pump action. Allows quick pumping out of former to point where load is applied, and then less effort needed during bending

3. Spring return ram, retracts ram when bend is complete.

4. Bending angle measuring stop, allows repeat bending with ease.

2. Flip top frame for easy pipe placement & removal and changing of former size.

5. Gravity Diecast aluminium alloy formers. Same specifications with higher quality finish.

Replacement Pipe Bender Formers

- Lightweight, aluminium alloy formers of "elliptical" design and large angle of arc to achieve superior quality bends
- To replace lost or damaged formers for BRAMLEY and other brands of Pipe Bender
- When using BRAMLEY formers on another brand of pipe bender, ensure distance between rollers is not too close which can cause former damage
- The ram spigot hole on BRAMLEY formers is 38mm. This can be bushed to suit smaller ram diameters
