

Soluble Cutting & Threading Oil

Soluble Cutting Oil

A milky white, mineral based, general purpose water miscible cutting fluid.

Part No. SOL5 (5 L)

Part No. SOL20 (20 L)

Recommended Dilutions:

General Purpose Machining 1 : 20

Milling, Drilling & Tapping 1 : 10

Machining Cast Iron & Grinding 1 : 25

It is essential to add a calculated volume of oil to a known volume of water and mix well. (Adding water to oil may result in separation).

At recommended dilutions, the product is classified as non-hazardous.

205 L Drum also available

5 L Container

20 L Container

Neat Threading Oil

- The same cutting oil used in threading machines is ideal for general use such as drilling, tapping etc.
- High grade also available for stainless and high tensile steels.

Part No. SP-OIL-5 (Standard - 5 L)

Part No. SP-OIL-20 (Standard - 20 L)

Part No. SP-OIL-5HT (High Grade - 5 L)

Part No. SP-OIL-20HT (High Grade - 20 L)

5 L container

20 L container
